PROFESSIONAL SUMMARY

Full Stack Developer with hands on experience in designing, building, and deploying scalable web and mobile applications using React.js, React Native, Node.js, Express.js, PostgreSQL, and Supabase. Track record of delivering paid, production-grade solutions for corporate clients, including a full-stack platform for Infinity Group. Currently building cross-platform mobile features at Turtu, with additional experience across AI-powered image analysis, telemedicine, and business-management platforms.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, Java, Python, C
- Frontend: React.js, React Native, Next.js, Vue.js, HTML5, CSS3, Tailwind CSS, Redux
- Backend & Databases: Node.js, Express.js, PHP, REST APIs, PostgreSQL, MySQL, MongoDB, Supabase
- Tools & Practices: Git, GitHub, CI/CD, Docker, Agile/Scrum, JWT Authentication, TDD, Vercel, Render

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — Turtu

March 2026 – July 2026

- Developed and shipped 6+ production features for cross-platform mobile applications using React Native, supporting active end users across iOS and Android.
- Architected reusable UI components and centralized state management, cutting feature delivery time by 15% under Agile/Scrum sprint cycles.
- Implemented secure REST APIs with JWT authentication and integrated CI/CD pipelines, enabling weekly production deployments with zero downtime.
- Partnered with cross-functional teams to debug and optimize application performance, resolving 20+ production issues and improving app responsiveness.

Full Stack Developer Intern — VTU Research & Innovation Foundation (VRIF)

1 Year

- Built and maintained web application features end-to-end using modern frontend and backend technologies.
- Implemented RESTful APIs and optimized SQL queries, reducing API response time by 20% and improving overall application performance.
- Collaborated with engineering teams on Test-Driven Development (TDD), debugging, and deployment workflows in production IT environments.

KEY PROJECTS

AI Image Detector | React.js, Node.js, Express, PostgreSQL, Supabase, Gemini API

[LINK](#)

- Engineered an AI-powered image analysis platform using the Gemini API to classify images as AI-generated or authentic with high accuracy.

RoadSide Rescue | Next.js, Node.js, Supabase, PostgreSQL

[LINK](#)

- Built a real-time roadside assistance platform connecting stranded drivers with nearby service providers via live, location-based requests.

Telemedicine Healthcare Platform | Vue.js, Node.js, Express.js, Supabase, PostgreSQL

[LINK](#)

- Created a virtual consultation portal enabling remote doctor-patient appointments and digital health monitoring.

Civil Construction site | Vue.js, Node.js, PostgreSQL, Supabase

[LINK](#)

- Developed and deployed a production-grade full-stack platform for Infinity Group, a civil construction and infrastructure company.

EDUCATION

B.E. in Computer Science & Engineering — SG Balekundri Institute of Technology (CGPA: 8.1) 2022 – 2026

Pre-University Course (PUC) — Islamiya P.U. College Camp (70%) 2020 – 2022

SSLC — Islamiya High School Camp (87%) 2020

CERTIFICATIONS & LANGUAGES

- Certifications: Smart India Hackathon (SIH) Participant; JavaScript for Beginners
- Languages: English, Hindi, Marathi, Urdu, Kannada (Foundation)
